SUMMER 2006

## FCAT / ART / YOU

There are numerous art projects that encompass FCAT skills; math, reading and science schoolage children . Just because school is out for the summer, a child's education can not be put on hold.

## CERAMICS

Art Adventures 2006 is very fortunate to have a world class ceramics studio at its finger tips. There are over a dozen potter's wheels, two kilns and abundant work space. All students will have an oppertunity to try the potter's wheel, various hand bulding clay techniques and glazing.

## FLORIDA HISTORY

The Clearwater area has a long and rich history. The Tocobage and Calusa tribes lived around Tampa for centuries. They produced their own pottery and crafts for daily use. Art Adventures 2006 will be exploring their art.

## MASK PROJECT GROUP PHOTO

Wearable masks were a lot of fun for last years second session. Here we see the class in the ceramics studio proudly displaying their creations. Masks are a traditional part of many cultures throughout history. Our culture has Halloween. Many movies feature charactors wearing masks. Our imaginations can create new experiences when we role play behind a mask.
